One of the most important and awe inspiring factors of the Indian ecosystem is Tiger- the national animal of India. However, the population of this majestic animal has been dwindling drastically in the last few years and is almost on the verge of extinction.

Mr Bittu Sahgal, an environmental activist , writer and the founder of ‘Sanctuary Nature Foundation,’ understanding the need of the hour; started the movement- “Kids for Tigers.” His idea was to bring children to the forefront to contribute significantly to safeguard the natural habitat of tigers and protect them from being ruthlessly killed and poached for their skin and claws.

He realised that the children are the future of the world and through their collective voice, they can generate awareness and help adults realise the gravity of the situation and take corrective measures. Children from different schools volunteered to protect tigers. Fortunately since 2006, the number of tigers has increased from 1,411 to 2967 in 2018.

The students of Modern School Barakhamba Road, celebrated the International Tiger Day on 29th July 2019 with great enthusiasm. In a grand ceremony, the students put up an energetic show for an encouraging audience. The events of the spellbinding ceremony included lively dance performances and a choir to attract the attention towards the deserving cause of saving our National Animal. The School amphitheatre proved to be an apt venue for this nature-oriented event. Dr Vijay Datta highly appreciated the efforts of the entire team.
