Over the course of seven days, three projects were completed by learners with the goal of assisting specially abled children in overcoming their obstacles and leading a better life.

The projects assigned to our students included the construction of an activity park in Chachiyawas, the refurbishment of a sensory park in the host school and the implementation of a sensory route with wall murals at Adwait Early Intervention Centre in Panchsheel.

The students of Modern School were truly enriched by this opportunity to help underprivileged and special children. Values of selflessness, sensitivity, hard-work, team spirit and gratitude were instilled in all the students throughout the project.
