The Principal of Modern School, Dr Vijay Datta, who himself is a sports enthusiast, recognized her potential. Shweta joined the school in grade 8 and has been practicing with undivided attention since then. A commendable fact about Shweta is that she never missed her morning practices even during the extreme weathers. This is not all, even during lock down she never missed her online practices. A simple girl, with simple living and high thinking, Shweta never failed to adhere to follow the school principles of getting a basic phone to school. She proved a testimony to the principal, Dr Datta's statement that one does not need flashy gadgets or power and money, only dedication and focus is required to reach to the pinnacle. The school can proudly boast of an All Girls Cricket Team and Shweta Sehrawat led the school to victory in the All India Women's IPSC Cricket tournament under his able guidance. The school is becoming synonymous in creating history in providing national level cricketers in the last few years. Marking her way through uninterrupted determination and hard work, she is an ultimate example stating that a female doesn't need a certain kind of awakening that can only be attained from a series of orthodoxal events but that she can begin rolling on the wheels of success from the very beginning.
