CREATIVE COMPOSITIONS

WORDS ARE POWERFUL

- Anshika Bhargava, VIII-C

In the world of words, where stories flow,
Their power shines, as bright as a rainbow.
With words, we can soar, like birds in the sky,
Or whisper sweet hellos as friends pass by.

Word can make us giggle, they make us grin,
They hold the magic to let dreams begin.
But remember, my friend, to always be kind,
For words have the power to heal hearts and minds.

So, let's use our words to spread joy and cheer,
To make the world a better place far and near.
For even though we're small, our words hold might,
To fill the world with love and light.

SCHOOLS OF TOMORROW

- Ravnoor Singh Narang, VII-H

Education available round the clock,
without a shutdown
Whether in village, whether in town
That should be the school of tomorrow.

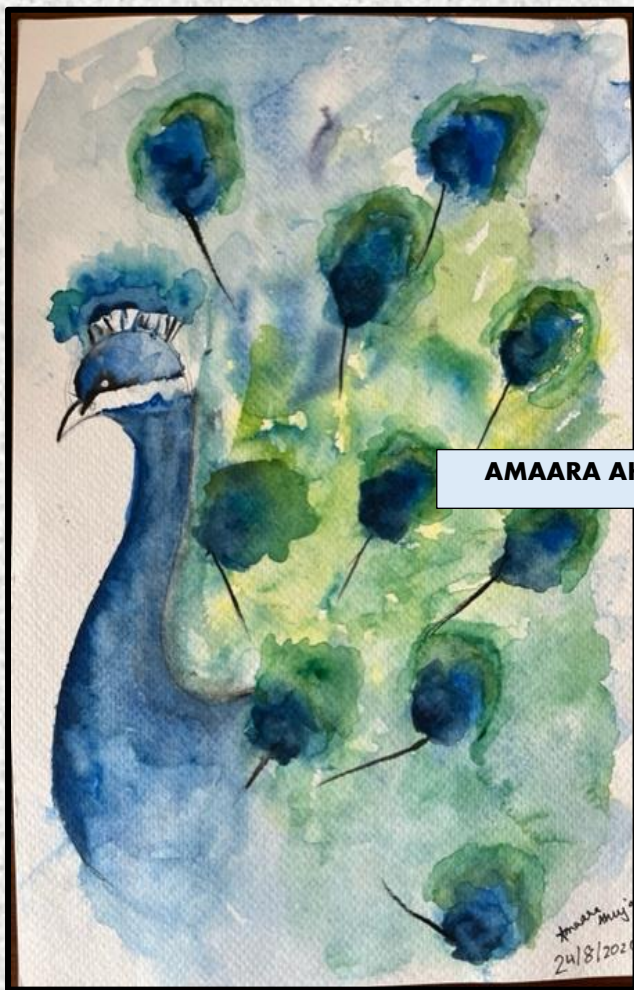

Holographic teachers for remote learning
Be it anywhere to keep that spark burning.
That should be the school of tomorrow.

From teaching to learning, learning to execution,
Bright minds working together to find solution.
That should be the school of tomorrow.

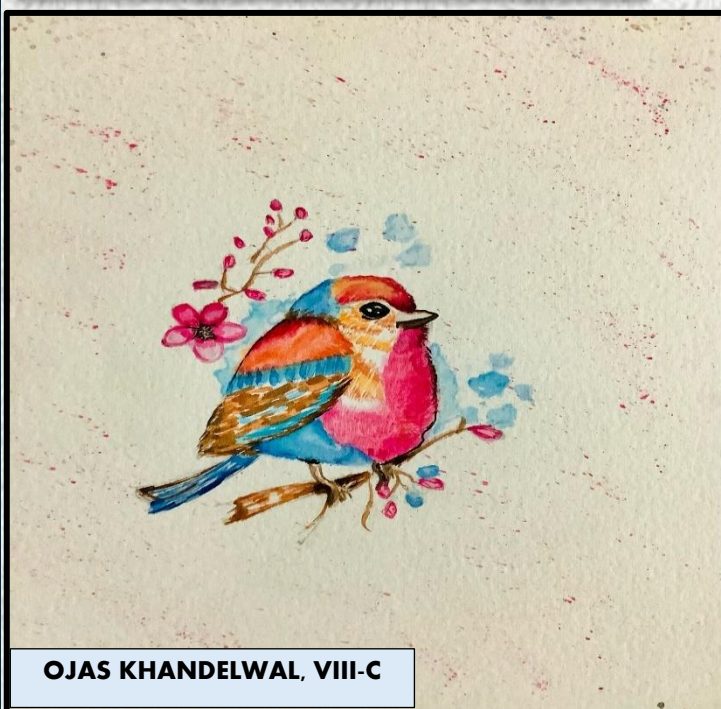

These poems were composed by the students as a part of Creative and Reflection Based Activity in the class.
