It's a joy and a privilege to welcome you all, to the 104th Founder's Day Celebrations of the school.

It is this time of the year, when we gather to salute the visionary zeal of Lala Raghubir Singh, who in the year 1920, laid the foundation of Modern School. He dreamt of an institution that was a perfect combination of modern education and Indian ethos. Lala ji's journey to realize his dream was galvanized by, not only his father, but also other great men like Gandhi, C.F. Andrews, Rabindra Nath Tagore and many more.

The vision of the dream took place in a Haveli at Daryaganj and found its wings at the present campus at Barakhamba Road, with the help of many a profound man, notable among them, being Sir Sobha Singh. The dream Lalaji saw, a century ago, has constructively grown into a successful reality. This institution has been fortunate to have at its helm, exemplary stalwarts like Dr S.K. Sen, Dr Sita Sen, General Virendra Singh, Mrs Ketaki Sood and inspiring men & women, who realised the dream of Lalaji and helped him carry his vision forward.

Founder's Day is more than just an event; it is the celebration of a year's worth of dedication, passion, and tireless effort. It is a day when the spirit of Modern School soars to its greatest heights, when every student and staff member strives to present their best. The air is electric with anticipation and

pride, as we celebrate the achievements of our students and reflect on the milestones of the year.

Our distinguished Chief Guest tonight is an old student of our school.

Shri Jayant Chaudhary, the Union Minister of State (Independent Charge) for Skill Development and Entrepreneurship, and Minister of State in the Ministry of Education, is an eminent figure in the Government of India. Representing Uttar Pradesh in the Rajya Sabha, Shri Chaudhary has also served in the 15th Lok Sabha, contributing his extensive knowledge and commitment to public service. He holds a Master's degree in Accounting and Finance from the prestigious London School of Economics and Political Science.

Throughout his political career, Shri Chaudhary has actively engaged in legislative discourse, notably championing land acquisition reforms through a Private Member Bill in the Lok Sabha. His expertise and insight have enriched several parliamentary committees, including those on Commerce, Finance, Agriculture, and Ethics. Committed to nurturing India's sporting future, he has devoted MPLADS funds to the enhancement of sports infrastructure, demonstrating his enduring commitment to holistic development in his constituency.

We also welcome the Guest of Honour with us this evening Mrs Charu Singh.

Modern School has grown in leaps and bounds under the able mentorship of our Former President, BOT, Mr Ashok Pratap Singh, Ex-President Mrs Anuradha Pratap Singh and we are now steered to greater heights, under the stewardship of Mrs Mira Pradeep Singh, President, Board of Trustees, Modern Schools. 1. INITIATIVES

A) ACADEMIC INITIATIVES

Integration of Art and Mathematics: In an effort to cultivate an engaging understanding of mathematics, the School has embarked on a unique initiative that marries the rigour of mathematics with the creativity of art. This interdisciplinary approach allows students to explore the mathematical beauty inherent in patterns, symmetry, and geometry, while also unleashing their artistic imagination.

'Knowing The World Around Us' Day-trips: Drawing from the Principal's rich insights gained as a member of the National Science and Technology Committee of the N.C.E.R.T., as well as his work with the Curricular Area Groups for syllabus development, the School has launched the 'Knowing The World Around Us' Day-trips. These excursions are a deliberate extension of classroom learning, allowing students to observe and connect real-world phenomena with academic concepts. Planned in alignment with each class's curriculum, these trips aim to cultivate a deeper understanding of the world, fostering the ability to apply classroom knowledge to everyday life. Students will be encouraged to bridge theory with practice, enriching their educational journey with real-world relevance.

EXCURSION TO LODHI GARDEN

Worthy Wordsmiths: In its continuous endeavour to nurture creativity and literary prowess, the School proudly launched the 'Worthy Wordsmiths' initiative under the guidance and vision of the Principal. Through this platform, over 130 students have already become published authors, a testament to the School's commitment to fostering not just academic excellence but also creative expression. This initiative continues to inspire students to discover and refine their literary voices, adding to the vibrant tapestry of our school's intellectual and cultural achievements.

The Principal, Dr Vijay Datta, has played a pivotal role in this educational transformation, particularly in the revision of English language textbooks for Classes 3 to 12. His advisory capacity has ensured that the highest standards of academic excellence are maintained, fostering a robust and comprehensive learning experience for students. The adoption of these books not only enhances learning but also provides a significant financial relief to families. From the upcoming academic session, the School plans to extend the use of NCERT language books to Class 6, having already implemented them in other subjects.

Curricular Contributions: As a key member of the NCERT's Curricular Area Groups (CAGs) for Science (Classes 6 to 12) and 'The World Around Us' (Classes 3 to 5), the Principal has made significant contributions to the development of new textbooks. The publication of *Wondrous World* for Class 3 marks the beginning of a series of innovative educational resources, with further books for higher classes currently under development.

B) SPORTS INITIATIVE

Guided Coaching: The selection of new coaches was undertaken with great care, focusing not only on their expertise in their respective sports but also, their ability to impart knowledge through demonstration. The coaches actively engage with the students by showcasing essential skills, stances, shots, and strokes on the field, allowing for a deeper understanding of the finer nuances of the game. This hands-on approach has significantly boosted both the confidence and performance of our students, culminating in the participation of 110 students in various sporting events at the SGFI and National level.

Soccer Achievements: In a remarkable achievement, both the Girls' U-17 and Boys' U-17 Soccer Teams of Modern School, Barakhamba, qualified for the prestigious Subroto Cup International Football Tournament—a feat rarely accomplished. Dr Datta personally guided and mentored the players, dedicating quality time on the field to offer insightful game-related tips and motivation, which proved invaluable during their coaching sessions.
