LITERARY CORNER

Live Life Like a pair
of walking feet. The foot
that is forward has no pride.
The foot that is behind has
no shame.
Because they
both know
their situation
will change.

There are many ways of conserving bees,
Like help preserving bees and their species,
Protecting already existing bee territories,
Planting bee friendly plants and trees,
Harmful chemicals we should seize.

Conservation of bees should start in
our place of residency,
For the bees we should all pray to thee.

And most importantly we should
come together and protect these.

Ronald was relaxing in his garden when he saw a meteor pass. But he quickly lost sight of it. He was curious as this was his first sight of a meteor – so he was very sad. That night he had a dream that someone knocked at his door and gave him a piece of meteor. Suddenly, Ronald heard a loud sound of his doorbell at 3 am and woke him up from his dream, there was no one at the door but a piece of shining object, like calling Ronald towards him...
